

# Carbon Reduction Plan

Supplier name TYLA Services Limited

Publication date March 2025

## Commitment to achieving net zero

TYLA Services Limited is committed to achieving net zero emissions by 2040.

## Baseline emissions footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline year: 2022</b>	
<b>Additional details relating to the baseline emissions calculations:</b>	
First carbon emissions assessment Jan – Dec	
<b>Baseline year emissions:</b>	
<b>Emissions</b>	<b>Total (tCO<sub>2</sub>e)</b>
<b>Scope 1</b>	506.14
<b>Scope 2</b>	9.24
<b>Scope 3 (included sources)</b>	25.21
<b>Total emissions</b>	<b>506.14</b>

## Current emissions reporting

<b>Reporting year: 2024</b>	
<b>Emissions</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
<b>Scope 1</b>	409.17
<b>Scope 2</b>	8.42
<b>Scope 3 (included sources)</b>	25.21
<b>Total emissions</b>	<b>442.80</b>

## Emissions reduction targets

In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 398 tCO<sub>2</sub>e by 2030. This is a reduction of 10%.

## Carbon reduction projects

### Completed carbon reduction initiatives

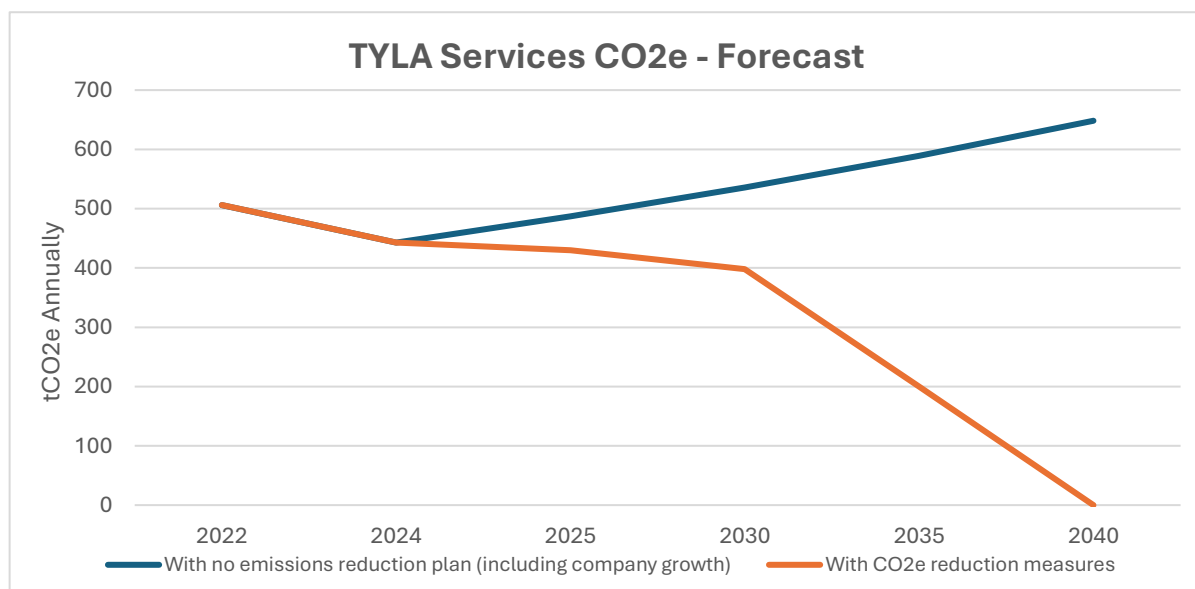

The following environmental management measures and projects that have been completed or implemented since the 2022 baseline. The carbon emission reduction achieved by these schemes equate to 63.34 tCO<sub>2</sub>e, a 12.5% reduction against the 2022 baseline and the measures will be in effect when performing the contract.

- Replacement of lighting at head office and depot locations with energy efficient LED systems.
- Replacement of end of service woodchipper with a new petrol hybrid machine rather than traditional diesel.
- Retrofit insulation to head office to reduce heat loss and increase energy efficiency.
- Continued investment in battery powered hand tools when replacing end of life and damaged tools.

### Future carbon reduction initiatives

In the future we hope to implement further measures such as:

- TYLA Services is proudly working towards ISO14001 certification and is on target to be certified early in 2026.
- Increase the number of electric vans in our fleet to reduce scope 1 emissions from diesel usage.
- Investment in solar energy at our head office location to provide electricity to the office and vehicle charging.

## **Declaration and sign off**

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

## **Signed on behalf of the supplier:**

Matthew Morgan

A handwritten signature in grey ink, appearing to be 'M Morgan', with a stylized, flowing script.
